Subject: attempting to close out methanol Request for Correction
Attachments: Methanol RFC Draft Response 3-13-12.docx

Below is a draft final response to the Methanol Institute (MI) on their RFC. Please review the response and let me know if you would like any changes - I'm including the letter as an attachment as well as text in case anyone would like to read it on blackberry. A link to the MI RFC is also attached below. It requested that we remove the December 2009 EPR draft methanol Tox Review from the website due to Ramazzini data. We have not removed the draft but it is now archived. I think OEI and OGC will be comfortable with the draft response below. They need to get OMB's (Margo Schwab's) approval to send out the final response. One sticking point may be is that I wrote the letter with Becki as the signatory and RFC responses usually have an AA's signature. I argued that since this isn't really an RFC that it is not appropriate to have an AA's signature. I haven't heard back from OEI or OGC on this yet...
